

# How can we cocreate #SUSTAINABLEMINING?

## INVITATION

### Presentation: The Dutch Approach to Water and Mining

**The Embassy of the Kingdom of the Netherlands and three renowned Dutch companies: IHC Mining, Fugro, and BAM International organise a presentation about the Dutch approach to water and mining.**

*Innovative solutions are the result of almost 900 years of experience of water management and a collaborative approach that are implemented around the world. A clear example of collaboration is the soon to be launched "Water and Mining Platform"; a network that unites and integrates knowledge and expertise combining different disciplines, coordinated by the Netherlands Water Partnership.*

**27 April 2016 - 17:00 hours**

**Expomin, Santiago de Chile**

**Sala 3, Centro de Convenciones, Espacio Riesco**

#### Programme:

- **Introduction to The Dutch Approach to Water and Mining**  
Mrs. Edith van Rossum, Head of Economic Affairs of the Embassy of the Kingdom of the Netherlands.
