

Winning Land Out of Water:

Polders in the Netherlands and in Singapore

26 January 2017, 3pm – 6pm

NUS Engineering Auditorium

Seminar on Polders by Professor ir. Kees d'Angremond,
HDB's Expert Advisor for the Polder Development in Pulau Tekong

An internationally renowned expert on coastal engineering, land reclamation, and polder development and management, Professor ir. Kees d'Angremond has extensive knowledge on and experience with land reclamation in Europe and Asia.

Since 2003, he has been exemplary in his advisory services to HDB and other Singapore Agencies, presiding over the bilateral Joint Studies directed by ITLOS for Singapore's

Pulau Tekong and Tuas View reclamation projects. He has a clear understanding the importance and sensitivities of issues relating to land reclamation in Singapore.

He acted as HDB's Expert Advisor on the 'Polder Development Study in Pulau Tekong – Conceptual Design Study' and has been appointed as HDB's independent Expert Advisor for the detailed engineering design and supervision for the Polder Development in Pulau Tekong to provide advice on the scope, approach and outcome of the detailed engineering design services. He will be sharing on the engineering design and challenges of land reclamation using polders.
