

Meet the Dutch @ IFAT 2018

On May 14th, the IFAT 2018 international trade fair, the world's leading innovation platform for environmental technologies, will start in Munich. Over 3,000 exhibitors showcase their pioneering technologies and solutions in the areas of water, sewage, waste and raw materials management. With 145 Dutch companies and organizations, the Netherlands is strongly represented at the fair.

In collaboration with the Bavarian Cluster of Environmental Technologies, Netherlands Water Partnership, Water Alliance, ENVAQUA and Global Matching, the Dutch Embassy in Berlin and the Dutch Consulate-General in Munich organize a circular economy breakfast and two thematic networking events. We cordially invite you to take part and meet innovative Dutch companies and experts in an informal atmosphere.

We look forward to meeting you!
